In partnership with the Office of Traffic Safety, California Highway Patrol, Impact Teen Drivers, and Capistrano Valley High School, **all students wishing to purchase a parking spot for the 2023-2024 School Year must complete an online educational module on California's Graduated Driver Licensing Law**. We are requiring parents and students to complete the module and the mandatory survey together. This online module will increase the understanding of the risks of teen driving, help protect teen drivers and passengers, and provide a comprehensive understanding of the California Graduated Driver Licensing Law. The module outlines elements of California's Graduated Driver Licensing, including Passenger Limits, Night-Time Driving, Mandatory Seat Belt Use, and No Electronic Devices.

IMPORTANT: The module takes approximately 25 minutes to complete. Impact Teen Drivers is not responsible for showing proof of completion. Students and parents are responsible for showing proof of completion to their school after participating in the module. At the end of the module, there is a mandatory survey. Upon completing the survey, the Learning Management System will provide a Certificate of Completion to download.
